

# Northwestern University Northwestern Memorial Hospital

## Client Needs Analysis

*Northwestern University and Northwestern Memorial Hospital each have sophisticated laboratories for a variety of disciplines that have required the services of professional movers to relocate. Each institution has repeatedly called on Boyer-Rosene to carefully handle their sophisticated instruments and handle their moves according to a precise schedule, and sometimes under tight budgetary or grant-related restraints.*

## PROJECT LOCATION:

NORTHWESTERN UNIVERSITY  
CAMPUSES - EVANSTON &  
CHICAGO  
NORTHWESTERN MEMORIAL  
HOSPITAL CAMPUS - CHICAGO

Northwestern University recently had several labs to move, including their Institute for Bioengineering and Nanoscience and Advanced Medicine, the Comprehensive Cancer Center, and the Reproductive Biology Research department. Boyer-Rosene provided the quality labor to pack and haul their sensitive equipment to the new locations allowing their researchers and scientists to move to modern new quarters with a minimum of downtime and disruption.

Boyer-Rosene moves scientific equipment such as lasers, electron microscopes, hoods, glove boxes, scales, ovens, as well as industrial and heavy equipment requiring rigging and specialized moving equipment.

Northwestern Memorial Hospital has relied on Boyer-Rosene to handle it's lab moving needs for many years. Some of the labs that Boyer-Rosene has moved include:

- Blood Gas lab
- Hematology/Oncology lab
- Gastroenterology lab
- Contagious Diseases lab,
- OB-GYN IVF lab
- Otolaryngology lab
- Dermatology labs
- Urology lab
- Pathology Lab
